

Mahatma Gandhi Shati Smarak Mahavidyalaya,

Garua Maksoodpur, Ghazipur

Seminar on Climate Change and Environmental Crisis

Climate change is one of the most discussed and debated issues in the current scenario. In light of this Mahatma Gandhi Shati Smarak Mahavidyalaya Garua Maksudpur, Ghazipur organized a one day seminar on the theme "**Climate change and India: Implications for the environment, policy and international politics**" on 11th December 2021.

Dr. Santan Kumar Ram was the key speaker who presented his views on climate change, its implication on developing countries with special reference to India.

Impacts of climate change are intensifying rapidly than the scientists have predicted. India has its own challenges with respect to climate change. Globally, India is being looked at one of the major greenhouse gas emitters when the country wants to grow and claim its economic prowess. At the same time, altered weather patterns, threatened biodiversity and lurking danger of sea-level rise to coastal cities pose serious existential questions on the future growth plans.

Not only that, India's relationships with other countries and political scenario at the global stage is seriously affected by climate change.

This seminar aims to provide a platform for academicians, researchers and students to come together, express their thoughts, suggest actions and intensity the movement to alter the path of climate change. The college hopes to build a sustained platform for dialogues through this seminar. We also hope to witness cutting-edge research being presented by young learners and provide them with an opportunity to listen to the

experts of the subject. The programme focused on the following objectives:

1. Concerning climate change, explore and understand issues and challenges to India
2. International scenario about climate change, its implications on the economic scenario and India's position
3. National and regional initiatives to deal with climate change its impacts in India
4. Bring forth the latest research regarding climate change by young scholars
5. Exchange of ideas, ideation of new projects, and creation of a network of climate change researchers.

Finally, Mr. Nitesh Pandey concluded the session by passing a vote of thanks to the speaker.
